PROFESSIONAL SUMMARY

Full-stack developer with 10+ years building and leading development of web and mobile applications, including U.S.-healthcare-standard certified software and Single Page Application migrations using Vue.js and Laravel. Experienced leading Agile teams, defining technical direction, and conducting code reviews. Founder and sole developer of an independent React Native business suite (POS, admin, and driver apps) built to run a live laundry business end-to-end. Comfortable using AI coding assistants (Claude) to accelerate delivery without sacrificing code quality.

WORK EXPERIENCE

Full-Stack Engineer — TaoCrowd Inc. (formerly August99) **Aug 2021 – Present**

- Own delivery and engineering support for Agreatertown, the team's dedicated Service Level Agreement (SLA) account, ensuring uptime and turnaround commitments are consistently met.
- Independently debug and resolve medium-to-high complexity production issues across the stack.
- Build and maintain custom WordPress themes for 5+ client sites, including JXPaper.

Technical Lead — Medx Open Systems Inc. **Sep 2018 – Aug 2021**

- Led a 6-person development team through Agile adoption, establishing sprint rituals, task breakdown, and status reporting practices still in use today.
- Partnered directly with the CEO and engineering team to build and maintain software certified to United States healthcare software standards.
- Directed the migration of a legacy application into a modern Single Page Application using Vue.js and Laravel, improving maintainability and load performance.
- Performed code reviews across the team and mentored developers on best practices and emerging tools.

Application Developer — Medx Open Systems Inc. **May 2016 – Sep 2018**

- Built core modules of an Electronic Health Record (EHR) system used by doctors and healthcare facilities across Hawaii.
- Designed and built RESTful APIs enabling third-party partners to securely access and exchange patient healthcare data.

INDEPENDENT PROJECTS

Founder & Lead Developer — Quinns POS, Quinns Admin & Quinns DriverPersonal Project

- Designed and built a three-app React Native suite (point-of-sale, admin dashboard, and driver app) to run day-to-day operations for a self-owned laundry business.
- Delivered order intake, driver dispatch/tracking, and business reporting in one connected system, replacing manual, paper-based processes.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React, Next.js, Vue.js, React Native, Tailwind CSS, Twig

Backend & CMS: PHP, Laravel, Slim Framework, RESTful API design, WordPress (custom theme development)

Data: MySQL, PostgreSQL, GraphQL

DevOps & Deployment: Docker, Railway, Google Cloud Platform (GCP), Git

Tools & Practices: Agile/Scrum, code review, AI-assisted development (Claude)

EDUCATION

BS in Information Technology — Ateneo de Naga University, Naga City
2012 – 2016

CERTIFICATIONS

- React Native – The Practical Guide 2023, Udemy/Academind (28.5 hrs) — completed Oct 2023
- Claude Code Beginner to Pro: Agentic Coding for Developers, Udemy/WebDevEducation (5.5 hrs) — completed Mar 2026
- Vue - The Complete Guide (incl. Router & Composition API), Udemy/Academind (32 hrs) — completed Mar 2026
